**Follow-Up Report from the Programme Approval Group for the
College of Medical, Veterinary & Life Sciences**

Ms H Clegg, Senate Office

In its initial report to ASC, the Programme Approval Group (PAG) recommended approval of the following proposals subject to conditions which have now been met.

The Group therefore recommends that these new programmes be approved.

MRes Infection & Immunobiology (General Programme)

And with specialisations in

- Comparative Medicine
- Immunology
- Microbiology
- Virology
- Parasitology

MSc Infection & Immunobiology (General Programme)

And with specialisations in

- Comparative Medicine
- Immunology
- Microbiology
- Virology
- Parasitology

This completes the business of the Programme Approval Group for the College of Medical, Veterinary & Life Sciences for Semester 1.
