

University of Glasgow**Academic Standards Committee - Friday 15 February 2013****Monitoring of UG Degree Classification Data****Ms H Butcher, Clerk to the Committee**

This paper provides some comparative data on Honours degrees classifications. Information for Glasgow is derived from Planning Office data used in the University's HESA return. Data for other Russell Group institutions has been drawn from *The Complete University Guide* league tables. 'Good Honours degrees' show the combination of First and Upper Second classifications achieved.

Table 1

Summary by percent of Firsts and Good Honours degrees by Subject Group achieved at Glasgow in 2010-11 and 2011-12. Cohort totals are also given to add some context to the percentage figures.

Table 2

Detailed breakdown of Glasgow data for 2011-12 showing degree plans within Subject Group and Joint degree awards.

Table 3

League table information showing the percentage of graduates achieving Good Honours degrees over the last three years at other Russell Group Institutions.

ASC is invited to note and comment on these data.

This information will be circulated to Colleges, Schools and Research Institutes.
