BAcc with Language

BAcc & Economics

A report will be submitted to ASC at its September 2017 meeting, indicating which programme proposals have been spot checked by the Senate Office and drawing ASC's attention to any deficiencies in the documentation and/or process. If necessary, suggestions for improvements to the process will be made.

Views will also be sought from each College on the operation of the revised procedure, and a summary of these views will be included in the report.
