Academic Standards Committee - Friday 6 October 2017
Audit Report on Course Approval Activity
College of Arts

Matthew Hastings, Head of Academic & Student Administration

To support the devolution of Boards of Studies to School level, the clerk to the College Board of Studies, attended all School Board of Studies meetings and provided advice to the School Board clerks and convenors on all UG courses put through PIP last session. This level of comprehensive oversight was provided in lieu of auditing a sample, in order to support the transition to School-level decision-making. This session auditing practices will be implemented. Any major concerns were raised and discussed at College Board of Studies. During this period Music and English Literature went through the process of credit standardisation which is the reason there are so many new courses.

As there were 210 changes to courses and 129 new courses these are attached in **Appendix 1**. Our Acting Dean of Learning & Teaching, Dr Karin Bowie will be attending the meeting and can speak to this and answer any questions that the committee may have.
